## SENIOR PROCESS OPTIMIZATION ENGINEER (GN)

Are you looking for an exciting career opportunity? Our esteemed client offers you the chance to join an innovative and dedicated team. Enhance your skills, advance your career, and shape your professional future. Apply now!

### KEY RESPONSIBILITIES:

- Optimize processes using Lean, Six Sigma, and KAIZEN.
- Conduct audits and ensure compliance.
- Create reports and visual presentations.
- Utilize data visualization tools (Power BI, Excel, SAP).
- Analyze and improve manufacturing processes.
- Lead training and foster continuous improvement.
- Implement Gemba Walks, PDCA cycles, and 5S.
- Collaborate across teams for sustained improvements.

### QUALIFICATIONS & EXPERIENCE:

- Education: Degree in Industrial Engineering, Mechanical Engineering, or a related field.
- Certifications: Lean Management, Six Sigma, or KAIZEN certification is a plus.
- Experience: At least 8 years of experience in the automotive industry or a similar sector (e.g., aerospace, mass production).
- Auditing: Experience in conducting internal process or quality audits is beneficial.
- Technical Skills: Strong knowledge of Lean tools, visual management, and process optimization techniques.
- Data Analysis: Proficiency in Power BI, Excel, and SAP for data visualization and reporting.
- Communication: Excellent ability to present complex topics clearly to executive leadership.
- Problem-Solving: Hands-on approach with the ability to develop and implement practical solutions.

### WHAT WE OFFER:

- A challenging and rewarding role in a fast-paced industry.
- Opportunities for professional growth and development.
- Competitive salary and benefits package.
- A collaborative work environment that values innovation and efficiency
